

Supplier Information Portal (SIP)

User Guide

Logging into the Supplier Information Portal:

Go directly to sip.yaffeco.net or use the Scrap Portal link on our web page at www.yaffeco.net.

The screenshot shows a web browser window displaying the homepage of the Yaffe Companies. The browser's address bar shows the URL <https://yaffeco.net>. The website header includes the company logo "the Yaffe companies, inc." with the tagline "Scrap Happens". A navigation menu contains links for Home, About, Locations, Services, Contact, Webmail, and Scrap Portal. A red arrow points to the "Scrap Portal" link. Below the navigation is a large image of a scrap metal pile with a red banner that reads "RECYCLING IN THE 21st CENTURY AND BEYOND". Below the image is a paragraph of text describing the company's history and commitment to recycling.

Home About Locations Services Contact Webmail **Scrap Portal**

**RECYCLING IN THE
21st CENTURY AND BEYOND**

The **Yaffe Companies and its subsidiaries** have evolved over the years into one of the largest privately owned scrap metal processing operations in the Midwest. The company's origin dates back to 1907 when the first yard was established in Fort Smith, Arkansas. Today, TYCI has grown from that single scrap yard into a company with fourteen locations in **Oklahoma, Arkansas, Missouri and Kansas**. Our company history, integrity, financial strength, unequalled level of service and overall commitment to excellence can be summarized in one word "**VALUE**".

This will bring up the Supplier Information Portal login page. Your username and password should have been supplied to you by your Yaffe Companies Account Rep or the General Manager of the location you sell your material to. If you sell material to any of The Yaffe Companies subsidiaries and would like to take advantage of the features in the Supplier Information Portal, please contact the [location](#) that you sell to and they will be happy to get you set up with a username and password. For your convenience, a link to this user guide has been provided on the login page for reference.

Shipment View

All shipment types can now be viewed in a single integrated shipment view. Detail drill downs on each Shipment (ticket) are available. The date range for the shipments is specified by you, and a summary view by material is also available. You can sort the report by any column, apply filters, and export the data as either a CSV, XLSX, or PDF file.
